## setting up my first enviornment

notes: sometimes there will be some error

```
library(ggplot2)
```

```
library(palmerpenguins)
```

```
data(penguins)
```

## visual

```
ggplot(data = penguins) +
```

```
  geom_point(mapping = aes(x = flipper_length_mm, y = body_mass_g))
```

this ti the visualion I made

```
## Warning: Removed 2 rows containing missing values (`geom_point()`).
```
